Wally,

Thank you! - and Carol for getting back to us on the "Residential Monitoring List. Regarding the residential wells listed in Van Buren Co., yes, we will attempt to sample those wells in late March or April (soon) along with the other residential wells listed.

I was not aware that the Contract between the MDEQ and the KCHCS will expire (or expired); therefore, perhaps it would be good to discuss (review) that topic/scope during our meeting in Kalamazoo on April 3.

Thanks and kind regards
Bill

Hello Shari and Bill,

We have reviewed the proposed KL Landfill "Residential Monitoring List" for FY 14. We concur with the list. However, we would like to suggest for the KLA Group to consider taking over most, if not all, of the wells that are currently being sampled by KCHCS under contract with MDEQ beginning FY15, provided the County's contractual obligation with MDEQ is no longer binding. Please let me know your thoughts on this issue.

Also, what is the status of the newly added residential wells in Van Buren County? Are they also going to be sampled in March along with all the other res wells?

Thanks.

Wally

Subject: KL Landfill Residential Monitoring List

Shari, Wally and Carol – hello. Bill Gierke (KLA Group) asked that I follow up on a discussion had during our meeting on December 9th in Kalamazoo. Please recall that an updated residential monitoring list was provided in the Fall 2013 Semi-Annual Residential DSR, dated November 26, 2013 (attached). We're starting to plan the spring 2014 monitoring event and request your input/concurrence with on the updated list. There are a few newly added residents in the Van Buren County, which we'll need to communicate with prior to sampling.

Tentatively, the residential sampling in is scheduled to take place late March. Thanks in advance for your response.

Kind Regards,
Tim

Wally,

I have no choice but to meet the statutory deadline. No exceptions.

I don't expect any changes to the FYR based on the site inspection. If they see a problem, they fix it. Don't you agree? Because the site inspection is later than usual, considering the amount of snow we had and still have, I couldn't conduct a site inspection until the snow melted, at least in part. I hope your management will take this into consideration. I also hope you will work with me to help us meet our May 15th deadline. I expect to send the FYR to you next Friday, March 21st, with the site inspection section blank (I don't expect any issues will be flagged).

Please let me know ASAP if this is a problem. Thanks, Shari

Shari,
I think they are on the list but not sure if they are sampling the newly added ones.

By the way, I got your e-mail message about changing the inspection date from April 3 to next week or last week of March. Sorry, I have a very tight schedule until the end of the month.

It appears that you may not be able to meet your May 15th deadline for the FYR. We have not received the DRAFT yet for our review and comments. It takes at least a month for us to review it and put it thru the SRT.

Thanks.
